EXPERIENCE

SOFTWARE DEVELOPMENT ENGINEERING IN TEST 3CLOGIC

SEPT 2021 – Ongoing

NOIDA, INDIA

- Collaborated with developers to integrate automation testing into the continuous integration pipeline, improving overall release quality. Here my responsibility are requirement understanding, jira task creation and monitoring. previously responsibility to check the bug in user interface level also API then design the framework and automate the code.
- Technology that integrated a call center's telephone system with a call agent's computers. it eliminates the need for a landing phone as the call agent can handle call from there computer itself.
- Lead the design and implementation of an end to end test automation framework, resulting in a 98 percentage reduction in manual testing effort.
- Developed and maintained automated test scripts for web and mobile application using Jenkins frame.
- I have worked on service now Google dialog flow where implemented in computer Telephony Integration. I have checked and verified the Kafka, Redis and API AWS(DB,s3), Using the Testing tools like load, functional, non Functional, regression and introgression testing.

PROJECTS

ATM SIMULATOR

MNNIT

Oct 2019

- It is a computer software which actually provides a token system to manage and resolve the queue of people in banks. Technology Used: Java, MySQL.

Quiz App

MNNIT

Sep 2020

- This is a multiple choice quiz app developed using SQLite database and Java Programming. Technology Used: Java, SQLite
- Quiz App works for question associated given by four option, one option correct and marks will be associated on the screen.

EVENT MANAGEMENT

LIVE WEBSITE

December 2021

- Online Event management booking (Web portal and Dashboard) Implemented By javascript/Node.js/ Html/css and Database.
- Event management is live project and customer booking by portal side and dashboard item show.

3clogic Automation

Playwright

December 2022-2024

- UI and API Automation Playwright using java language.

EDUCATION

B.Tech in Information Technology

MNNIT ALLAHABAD

JULY 2017 - MAY 2021

INTERMEDIATE GAYA COLLEGE GAYA

June 2013 - June 2015

STRENGTHS AND SKILLS

- **Languages:** c++, Java, c, Node js, javascript.
- **Fundamentals:** Data Structure Algorithms, System Design, Linux, Object Oriented Programming(OOPs) DBMS, Software Development Life Cycle, Manual Testing, Automation testing, API testing, kAafka, redis,AWS, Jenkins, Selenium, Mobile Application Testing
- **Tools Technology :** GIT, Jira, Jenkins, Visual studio code, Selenium Tools, Manual, Redis, Kafka, Service NOW, Google dialog Flow, Database, Load testing, playwright automation, TestNG, cucumber framework.

ACHIEVEMENTS

- Among top 50 teams from over 1000+ team at coding contest held at MNNIT
- 2nd Runner-Up in cluequest - A braintrotroming event in Avishkar, MNNIT 2019.
- Athelatics mairathan champion at All india NIT college 2018
- Awarded Employee of the Hall Fame at 3clogic Noida.(2022)

POSITION OF RESPONSIBILITY

- Lead the Automation and manual testing for my team at 3clogic.
- Technical Mentor at Student Membership programme, MNNIT.
- Lead member of Athletics for marathon.
- Lead the servicenow automation and manual testing at 3clogic.
